

Hello!

A welcoming story

How to draw Habiba

Habiba is from **Somalia** and is very excited to make new friends in her **new home**.

Let's draw her together!

Some tips:

- Your lines don't need to be perfect.
- Practice drawing Habiba a few times. Each time it will be easier.
- Try using different colors for her clothes. Be creative!
- Draw the outlines lightly or use a light colored pencil if you don't want heavy black lines in your drawing.
- After you draw Habiba, try making a self portrait! Use a mirror or a picture of yourself as a guide.

1. Draw her hijab and head.

2. Add her torso.

3. Then draw her legs and cool boots.

4. Add her arms and hands. She is now saying Hi!

5. Add her eyes, brows, nose and smiley mouth.

6. Draw her hair and add details to her clothes.

7. And of course, add some color!
